

We are specialists in software, sales and support in the sectors office, property & residential, factory & warehouse and technology & IT. Software solutions such as Concept Office and pCon.planner are our passion.

We are your first contact regarding the distribution of your OFML® data. Our commercial software of the Concept family as a desktop-, cloud- and hybrid application offers the fitting solution for every corporate area in the office industry. Our renowned 3D OFML® planning system pCon.planner PRO provides room and interior planners with everything needed for their creative work.

Our apps pCon.facts and pCon.box support sales and external sales at the point of sale. The academy for training our software portfolio completes our service.
